PAINT MIXING SERVICE

We aim to deliver high quality products to the decorating trade at affordable prices.

We stock a large array of products and offer a tinting facility for over 10,000 colours, all available from stock.

Whether you need to know the best products to use for the job or want advice on the correct application, we will endeavour to satisfy your requirements.

Whatever your decorating needs. It might be a new look for the office or a face lift for the living room, we'll make it our business to make sure you get it right or point you in the right direction to finding the perfect solution for your project.

HEAT SEAL & EMBROIDERY SERVICE

We can heat seal or embroider your company logo, employee name, or job title etc onto a variety of garments including polo shirts, sweat shirts, fleeces, coveralls, trousers, and even safety helmets*.

To discuss your requirements or for more information on our embroidery and heat seal service please contact your local experienced sales team.

We can even pack all the items of clothing, including footwear, for each employee up together as a manpack to save you time.

* Set up charge may apply

WARDROBE MANAGEMENT SOLUTIONS

We can create added value by introducing a fully bespoke Wardrobe Management Internet Solution.

-  **Employee Login**
Staff and managers are able to login and order uniform and PPE online 24/7
-  **Order & Return**
Place orders and return items online quickly and easy
-  **Multiple Department**
We can set up multiple locations and departments for online ordering
-  **Spend Management**
Allocate a specific number of garments to each employee
-  **Live online support**
Online helpdesk to assist with orders and returns, Monday to Friday

This will keep up-to-date records of spend, which will drill down to individual locations. It will draw attention to locations ordering too frequently, and monitor usage by location. This bespoke system can be individually tailored to deal with specific requirements.

A Wardrobe Management System will also help with budgetary control, giving greater accountability, and ensuring that individual sites are paying the correct amount for their workwear and PPE. All orders will be emailed back to the relevant people, and records held online, eliminating the need for paper based systems.

This system will ensure that managing orders is simplified, eliminate the need for paper based records, and cut out time associated with the ordering of workwear and PPE.
