## CLEAN & HYGIENIC

We offer a wide range of cleaning products, created to keep any working environment spotless and germ free!

Suppliers of

**WARRIOR**

All our products are available in economy sizes, offering your business a cost effective solution every time.

### Industrial Skin Hygiene

All skin hygiene products in the Deb Global range are dermatologically tested.

#### Biocote® - The Power of Silver

All Deb dispensers in this range are Biocote® protected, and guaranteed for life\*. Biocote® is a silver-based antimicrobial agent that is incorporated into the dispenser components at the time of manufacture and inhibits the growth of a broad spectrum of bacteria and moulds. Biocote® will not wear out or rub off over time, making it effective for the lifetime of the dispenser.

\*Deb dispensers are guaranteed for life against normal wear and tear.

### Washroom Skin Hygiene

Hand Hygiene in the Workplace.

Ideal for use in washrooms in general industry, healthcare, schools, manufacturing and office environments and public facilities.

'It is a legal requirement for every employer to provide the correct facilities for handwashing. This includes soap and hot and cold running water.'  
Source: Health and Safety Executive: Welfare at Work Guidance for employers on welfare provisions.

- Hands are the main vehicle for transmitting germs
- One in 5 people still do not wash their hands when they visit the washroom
- Of those that do, only 30% use soap. Water alone does not clean hands effectively.

### Benefits of Deb FOAM WASH

The Deb range of foaming hand cleansers offers improved cost-in-use in comparison to many lotion soaps. Only one application is needed for effective hand cleansing.

- Helps save time – less product and less rinsing is needed
- Helps save water – up to 45% less water usage compared to using lotion soap\*
- Helps protect the natural environment – foam soaps biodegrade more easily than lotion soaps

\*Using Deb's hand washing techniques

### NEW OxyBAC™ - For The Food Industry

The Safest and Most Effective Antibacterial Hand Wash.

A unique new rich-cream FOAM antibacterial hand wash combining Deb Foam Technology™ with Accelerated Hydrogen Peroxide® antimicrobial agent to provide significant benefits over all other antibacterial hand wash products.

- Broad spectrum antimicrobial activity - extremely effective at killing a broad spectrum of bacteria, fungi and many viruses that can be spread by hands and cause common illness
- Safer for the environment - unlike all other antimicrobial actives, hydrogen peroxide leaves no residual environmental contamination after use as it simply breaks down into oxygen and water
- Safer for the user - non-toxic and non-irritating to skin; does not induce microbial resistance
- High performance cleaning - excellent physical cleaning properties to remove both visible food contamination and invisible micro-organisms
- Safe for food – perfume-free and dye-free, tested to prove non-tainting to food

### EU Ecolabel

The Deb range of foaming hand cleansers offers improved cost-in-use in comparison to many lotion soaps. Only one application is needed for effective hand cleaning. Deb Azure FOAM WASH is EU Ecolabel certified – kinder to your skin and the environment.

### Workplace Skin Hygiene

Deb® InstantFOAM® Hand Sanitiser.

Highly effective, perfume-free, dye-free alcohol-based foam hand sanitiser with moisturiser. Use without water to kill 99.999% of many common germs in just 15 seconds. The hypoallergenic foam formula is ideal for frequent use, leaving hands feeling refreshed, smooth and soft. Does not contain any gelling agents, so unlike 'alcohol gel' products, frequent use of Deb InstantFOAM does NOT leave hands feeling sticky. Also, the non-tainting and glove compatible formula is ideal for use in any food handling environment. The highly effective formula conforms to EN1500 in 15 seconds, EN1276, EN1275 and EN14476.

#### Improve hand hygiene in your workplace

Use hand sanitiser at potential germ transfer hot spots, such as:

- Hot desking areas
- Communal and shared resource centres
- Canteen and restaurant areas
- Touch screens
- Lift buttons
